EXPERIENCE

Software Engineer Intern

Dec 2025 – Feb 2026

BlueStock FinTech, Hyderabad

- Designing and shipping production-grade backend services and API integrations as part of a fast-paced engineering team.
- Contributing to scalable microservice architectures with Python/FastAPI and containerized deployments on Docker/Kubernetes.
- Collaborating on CI/CD pipelines to automate build, test, and deployment workflows.

Data Science Intern

Aug 2024-Oct 2024

Interns Elite, Hyderabad

- Developed supervised and unsupervised ML models for classification and anomaly detection tasks using Scikit-learn and XGBoost. ▶ Built end-to-end data preprocessing pipelines and exploratory analysis dashboards with Pandas, Matplotlib, and Seaborn. ▶ Delivered model performance reports and communicated insights to cross-functional stakeholders.

PROJECTS

AI Data Leakage Detection System

- Engineered a multi-algorithm leakage detection engine combining β -VAE anomaly detection, PyTorch Geometric graph attention networks.
- Implemented a composite Leakage Risk Score (LRS) aggregating statistical, structural, and causal signals into a single actionable metric.
- Built a React frontend dashboard with real-time pipeline monitoring and risk visualization.

Event-Driven Agentic Messaging

- Built a custom distributed message broker in Rust with Raft consensus for fault-tolerant leader election and high throughput message routing.
- Designed a Python AI agent layer with RAG and multi-modal processing for intelligent automated responses.

TECHNICAL SKILLS

Languages: Python, Java, JavaScript, SQL

Data Science: Pandas, NumPy, Matplotlib, Seaborn

Frontend: React.js, HTML, CSS, Tailwind CSS

Backend: Node.js, Flask, Fast API,, REST API

Databases: MongoDB, PostgreSQL, Oracle

Tools & Platforms: Git, Github, Docker, Postman Code

Cloud and Deployments: Vercel, Render, Railways

ACHIEVEMENTS & CERTIFICATIONS

Winner – Project Expo (Jun 2025)

EDUCATION

MLR Institute Of Technology

Bachelor in Computer Science (Data Science)

CGPA:7.8

Sep. 2023 – Sep 2027
