EXPERIENCE

Software Engineer Intern — BlueStock FinTech, Hyderabad · Dec 2025 – Feb 2026

Designed and shipped production-grade backend services and API integrations. Contributed to scalable microservice architectures using Python/FastAPI, Docker/Kubernetes and CI/CD.

Data Science Intern — Interns Elite, Hyderabad · Aug 2024 – Oct 2024

Developed supervised and unsupervised ML models for classification and anomaly detection with Scikit-learn and XGBoost. Built preprocessing pipelines and EDA dashboards using Pandas, Matplotlib and Seaborn.

PROJECTS

AI Data Leakage Detection System

Engineered a multi-algorithm leakage detection engine combining β -VAE anomaly detection and PyTorch Geometric graph attention networks. Implemented a composite Leakage Risk Score and a React dashboard for real-time pipeline monitoring and risk visualization.

Event-Driven Agentic Messaging

Built a custom distributed message broker in Rust with Raft consensus for fault-tolerant leader election and high-throughput message routing. Designed a Python AI-agent layer with RAG and multimodal processing.

TECHNICAL SKILLS

Languages: Python, Java, JavaScript, SQL **Data Science:** Pandas, NumPy, Matplotlib, Seaborn

Frontend: React.js, HTML, CSS, Tailwind CSS **Backend:** Node.js, Flask, FastAPI, REST API

Databases: MongoDB, PostgreSQL, Oracle **Tools:** Git, GitHub, Docker, Postman

Cloud: Vercel, Render, Railway **ML:** Scikit-learn, XGBoost, PyTorch

ACHIEVEMENTS

Winner — Project Expo (Jun 2025)

EDUCATION

MLR Institute of Technology · Bachelor in Computer Science (Data Science) · Sep 2023 – Sep 2027 · CGPA 7.8
